

Sealed Bid - Ovation Polymer Technology & Engineered Materials (OPTeM)

Location: Medina, OH

04/22/2025

Sealed Bids due on April 22 by 12 PM CT. Submit your sealed bid information [here](#).

Unique Opportunity to Acquire a Complete, State of the Art, Specialty Compounding Facility based in the United States.

Founded in 2004, Ovation Polymers (OPTeM) is a specialty engineered plastic compounder headquartered in Medina, Ohio. Their compounding offerings range from routine to specialized processes such as dispersion, reactive extrusion, grafting, cross-linking polymers, devolatilization, performance/functional fiber reinforcement, and the processing of nano-engineered molecules.

Company is ISO 9001:2015 registered (valid through 2027) and includes a strong IP portfolio that encompasses advanced nano-composites, high thermal conductivity alloys, and engineering plastics compounds and composites (15 granted patents).
